The monthly meeting was started by Steve Jenkins promptly at 7:00 pm on August 18th. There were 2 visitors.

Announcements

Woodworker's Convention

The Woodworker's Convention / Show is being held on October 23-25 in Garland. We need volunteers to man the NTWA booth at the show. Call or see G.T. Robinson to sign up (972-243-7990). You will get free tickets to the show for volunteering.

November Meeting

The November meeting will be a toy car build at Steve Jenkins workshop in McKinney. We will meet at 10 AM, November 14 at his shop and build toy cars for a missionary group, just like we did last year. We will go until about 4 or 5 PM. The club will supply lunch and soft drinks.

Woodworkers All Day Class

As announced at the meeting in August, the staff members are trying to get a woodworkers all day training class set up for a Saturday in March. It will start about 9 AM and go to about 5 or 6 with an hour break for lunch. The training class will be at the Woodcraft Store on Marsh and Spring Valley and will be taught by either a Woodcraft employee/expert or an outside expert. The two classes preferred by poll at the last meeting were (1) Stains and Dyes and (2) Finishing for the Home Shop. We are shooting for each attendee to pay \$40 for the session (about ½ of the usual Woodcraft class charge for an 8 hour session. BUT I MUST HAVE 10 PEOPLE SIGN UP WITH THEIR \$40.00 PAYMENT AT THE SEPTEMBER MEETING. We have to commit 6 months in advance for Woodcraft to schedule the class. SO BRING YOUR MONEY TO THE NEXT MEETING AND SIGN UP FOR THE CLASS. Note: I will try to schedule the class early in March to avoid Spring Break.

Show and Tell

Terry Pennington brought pictures of a mahogany changing table with maple drawers made for a neighbor. It was loosely modeled after one seen at Target.

Sydney Futrell brought small mallet printed 3D using AutoCAD. Hope to find a woodworking application for the technology.

Raffle

The August raffle prize was a set of Worktones Headphones won by John Loftis.

Program

The August demo was given by GT Robinson on Chair Caning. GT showed us the steps to creating a caned chair back or seat including the types of cane available, amount of time required for soaking the cane, cutting the slots for the cane, using the splines to hold the cane in place and the gluing process.

The **September** demonstration will be given by Dick Koch on turning Segmented Bowls.
