Repair Request

A Mr. John Claire has contacted our club to see if anyone would be interested in helping repair his son's drum set. Please see details below:

My son just graduated from Univ. of North Texas where he studied music, specifically the drum set. He has a bass drum with a cracked shell. The shell is made of 5 layer plywood with a unique radial bracing system. (photo attached). Google Peavey Radial 1000 drums.

Does anyone in your organization have an interest in attempting to repair this for my son?

If you are interested, please contact Mr. Claire at
